Minority, Woman-Owned Functional and Technical Solutions Provider

EXECUTIVE SUMMARY

Yellow House Consulting Group (YHCG) is an effective Federal agency partner specializing in business and technology solutions. Our expertise is systems integration, change management, accounting support, data cleansing, data analysis, and custom-built financial reporting using the Oracle platform.

Our team has impacted over ten offices across the continental United States within Defense Human Resources Activity's (DHRA) programs. Our support for DHRA ranges from Personnel and Readiness, Budgetary and Accounting, and day-to-day operations. Our methodologies and solutions have directly benefited over 3,000 combined military and civilian employees.

YHCG's leadership and seasoned employees have established best practices based on their former corporate experience and prior support of government clients. Our collective achievements include facilitating the successful execution of billion dollar budgets to include foreign currency, establishing trading partner reconciliation programs at Defense Threat Reduction Agency (DTRA) and DHRA, which have been recognized as a standard of excellence by Defense Finance Accounting Service (DFAS) and Office of the Under Secretary of Defense (OUSD), and submitting over 2,000 key supporting documents for all Financial Improvement and Audit Readiness (FIAR) assessable units. Testing resulted in a 100% deadline pass rate in all tested areas.
